# *Introducing Glass Workx (WA) Pty Ltd*

## *The Glass Workx Story*

*Our story began in 1986. Back then, we started with one man, a shed and an iconic Holden ute.*

*Today, we are privileged to connect with hundreds of people every day with our range of high quality products, a factory based in Osborne Park, Western Australia, five specialized vehicles and service oriented staff.*

*Inside this catalogue:*

- **Specialized Glass:**
  - ⇒ Satin Silk
  - ⇒ Sunergy
  - ⇒ Optiwhite Safe
  - ⇒ Satin Silver
  - ⇒ One-way Vision
- **Balustrades & Windbreaks:**
  - ⇒ Frameless Glass Balustrade Channel
  - ⇒ Harkk Balustrade Systems
  - ⇒ Panora Kinetic Windbreak Systems
- **Energy Rated Doors and Windows:**
  - ⇒ ProGlide High Performance Sliding Doors
  - ⇒ View-Max Sliding & Double Hung Windows
  - ⇒ ProTilt Awning & Casement Windows
  - ⇒ ProVista Sashless Double Hung Windows
  - ⇒ PanoraView Guillotine Windows
- **Services:**
  - ⇒ Crystal Restoration Services
  - ⇒ Residential and Commercial Repairs
  - ⇒ Shower Screens
  - ⇒ Mirrors
  - ⇒ Glass Cut to Size

## *SUNERGY*

- ♦ *High light transmission*
- ♦ *Low reflection and neutral appearance*
- ♦ *Thermal insulation combined with solar control*
- ♦ *Warm in winter, cool in summer*
- ♦ *Comes in 4mm, 6mm, 8.38mm and 10.38mm thicknesses*
- ♦ *Versatile—Can be toughened for use in curtain walls and balustrades*

# SUNERGY

**Sunergy** is totally neutral which gives the appearance of ordinary glass with the benefits of solar control.

**Sunergy** has a hard coating that allows for easy processing, handling and fitting.

**Sunergy** combines light transmission, solar control and thermal insulation to make the ideal glass for all seasons.

## **Sunergy Applications:**

- ⇒ Curtain walls
- ⇒ Toughened glass assemblies
- ⇒ Balustrades
- ⇒ Double-glazing
- ⇒ Windows and doors
- ⇒ Glass roofs

Single glazing - COMFORTPLUS															
ComfortPlus	4	6.38		62	8	10	<1					0.61			5.9

**Colour Index RD65:** This index gives a quantitative evaluation of the differences in colour between eight tested colours lighted directly by the illuminant D65 and by the same illuminant transmitted through the glazing.

**Light Transmission:** Percentage of the light flux (illuminant D65) transmitted through the glass.

**Light Reflection:** Percentage of the light flux (illuminant D65) reflected by the glass.

**Direct Energy Transmission (DET):** Percentage of the solar radiation transmitted directly through the glass.

**Energy Reflection (ER):** Percentage of the solar radiation reflected by the glass.

**Energy Absorption (EA):** Percentage of the solar radiation absorbed by the glass. The absorbed energy is then reradiated to the outside and the inside at different rates depending on the characteristics of the glass, wind speed, internal and external temperatures.

**Solar Factor (SF):** Radiation transmitted through the glass. It is the sum of the DET and the part of the EA reradiated to the inside of the building.

**Ultraviolet Transmission:** Percentage of the ultraviolet radiation transmitted through the glass.

**Shading Coefficient (SC):** Division of the SF by 87 (the SF of 3mm clear glass).

**U-value:** Characterises the heat transfer through the central part of the glazing.

## ***SATIN SERIES - BALUSTRADE CHANNEL***

### *Sizes and Finishes*

- ♦ *Mill finish*
- ♦ *Can be cut to size & powdercoated to the colour of your choice*

### *Technical Considerations*

- ♦ *It is recommended that a level, firm surface be provided for fixing of the channel.*
- ♦ *Do not fix channel to compressible deck surfaces.*
- ♦ *It is recommended that a suitably qualified engineer is consulted to check on all installations.*
- ♦ *Waterproofing and structural timber deck design are not part of this scope.*
- ♦ *Fixings to concrete—Chemset/Dynabolt, M10 x 100mm stainless steel.*

*For more information, contact :*

## GLASS RAILING WIND BREAK

*The Kinetic windbreak system is a vertically retracting balustrade that is suitable for outdoor applications. Kinetic systems provide all the benefits of a glass railing, with the convenience of an additional wind and rain shield when required. Kinetic systems utilize a concealed self-charging piston system that eliminates the unsightly counterweights, thick profiles, cables, and pulleys that are used by other inferior systems. Kinetic opens manually and closes automatically with a simple touch. The Kinetic FC provides high wind resistance and extra safety. The Kinetic FB is designed to be portable with an integrated planter.*

**FLOOR TO CEILING DESIGNS  
FOR MODERN LIVING.**

The ProGlide™ range has been designed with Australia's unique architecture and climate in mind. The door allows architects & designers to achieve large expansive openings whilst also offering a weather resistant wheelchair compliant sill to AS1428.1 without the need to compromise on performance or aesthetics.

This range of doors ensures that clients receive a solid, durable high performance product offering with an optional continuous accessible path of seamless transition between internal and external floor finishes.

Designed and manufactured in Australia to meet the extreme Australian Environment, the ProGlide™ range should be your first choice when performance and quality matter.

### KEY FEATURES

- ⇒ AS1428.1 wheelchair compliant sill option.
- ⇒ Water resistant sill.
- ⇒ Large sliding panels.
- ⇒ Inside, outside sliding panels, allowing multiple panel designs.
- ⇒ Allows up to four (4) panels stacking in each direction.
- ⇒ Heavy duty aluminium profiles.
- ⇒ Accepts up to 14mm single glazed and up to 28mm double glazed units, allowing the system to achieve demanding thermal and acoustic specifications.
- ⇒ 90 degree post free corner option.

Maximum Recommended Sizes	
Height	3000mm
Sash Width	1800mm
Weight	200kg per sash

**MAXIMUM VIEW,  
UNLIMITED POSSIBILITIES.**

The View-Max sliding and double-hung window offers unparalleled levels of flexibility by allowing the choice of 76mm or 101.6mm framing to cater for both the slimline applications and those of a more robust commercial design.

This range of windows offers the flexibility of single and double glazing options. The View-Max integrates a number of design initiatives that are unique to the system such as proprietary locking, roller and drainage systems.

#### KEY FEATURES

- ⇒ Designed with sliding & double-hung options to suit 76mm and 101.6mm framing.
- ⇒ Developed specifically for multi-storey residential and architecturally designed housing.
- ⇒ Accepts up to 11mm single glazed and up to 16mm double glazed units.
- ⇒ Superior thermal and acoustic performance.
- ⇒ Superior weather performance.
- ⇒ Simple fabrication makes these windows cost-effective.

#### **Maximum Recommended Sizes**

	Sliding	Double Hung
Height	1600mm	1190mm
Sash Width	1200mm	1200mm
Weight	50kg per sash	20kg per sash

## MOTORISED GUILLOTINE WINDOWS AND DOORS

*A New Solution  
for Windows and  
Doors  
“for a better  
view”*

*“Imagine a glass wall that virtually disappears to create a door or window function by sliding up or down, without taking up any space in its operation.”*

*The retractable architectural Guillotine Window and Door System represents a new paradigm to the architectural door and window world. The large spans and vertically retracting frames (up to 5,5m) provide unobstructed views and optimise the versatility of every opening in your buildings.*

*Put simply, they “broaden your horizons!”*
